

FETCH a cure

Funding • Education • Treatment • Canine • Health

We give our hearts to these furry family members.
Having cancer take them from us is unacceptable.

You could help save a life, donate! fetchacure.com

Cancer accounts for almost half of the deaths of pets over 10 years of age. Dogs get cancer at roughly the same rate as humans. We give our hearts to these furry family members knowing that in 10-12 short years they will be gone from our lives. Having them taken from us any earlier is unacceptable. Because of this, educating pet owners on the importance of senior care is imperative. FETCH is working on behalf of all pets and their owners who are being or have been affected by the symptoms of aging. FETCH A Cure is truly a grassroots, from-the-heart, 501c3 non-profit organization; created and run by those who have been faced with cancer and inevitable aging in their own pets.

Your support will help us fund ...

- + Education for senior care with an emphasis on symptoms of canine cancer within this population.
- + Support for treatment & care of affected canines whose families are unable to financially provide for their pet.
- + Development of a local canine cancer and aging center with on-site specialists & equipment for ongoing canine health.

Join the *FETCH* family !

We invite you to help us *fetch a cure* to improve the quality of life for our family members. Visit our web site to make a direct donation. Local businesses have generously donated rewards as incentives for the community to support this cause through donations.
